

Refrigerator Production Solution

Reliable support for your cold chain journey

江阴市中盛永佳聚氨酯有限公司
Yongjia Polyurethane Co., Ltd.

UREXCEED[®]

COMPANY PROFILE

企业介绍

Introduction to urexceed

- Founded in 2005, UREXCEED specializes in polyurethane foaming equipment, refrigerator & freezer moulds, production line integration, and complete appliance solutions. We provide a full range of services, including customized equipment, on-site installation, commissioning, and training, committed to delivering efficient and stable manufacturing solutions for various industries.
- The company holds multiple industry certifications, including ISO9001 Quality Management Certification, CE Certification, and more. Our products are widely used in refrigerators, freezers, insulation materials, solar water heaters, and other fields. We have established long-term partnerships with several international brands. Our products are exported to 36 countries and regions, with offices in Southeast Asia, Europe, South America, and other regions, ensuring a global service network.

1. Professional Team & Rapid Response

Our professional team offers efficient service and support. Whether it's product consultation or project requirements, we can provide a quote within one hour, ensuring quick response and timely satisfaction of customer needs. We are committed to delivering the most professional advice and the most suitable solutions for every client.

2. Efficient Delivery & Customization Services

Completed Products Delivered Within 15 Days

We guarantee that completed products will be delivered within 15 days, minimizing downtime and allowing our customers to start production as soon as possible. Our efficient production and delivery processes ensure every step is precise and on time.

Mould Design Completed Within One Week

Our mould design team can complete the mould design drawings within one week, enabling us to quickly respond to customer needs and start production without delay. With our extensive design library, we can provide highly customized moulds, meeting diverse customer requirements efficiently.

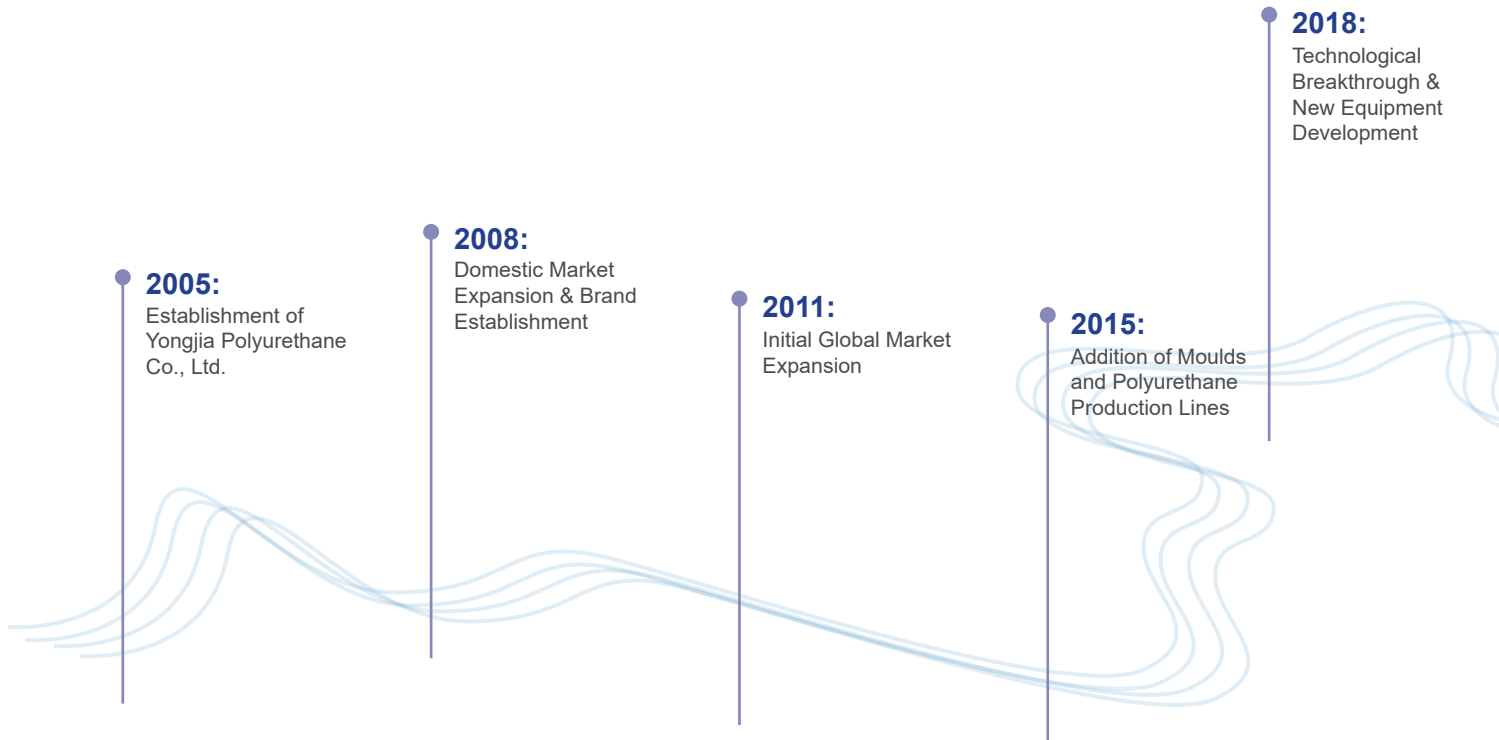

3. Lifetime Maintenance for Moulds & Quality Assurance

We offer lifetime maintenance services for all moulds, ensuring they maintain high efficiency and precision throughout their use. Additionally, all equipment and production lines come with a 5-year warranty, guaranteeing long-term stable operation and protecting your production process.

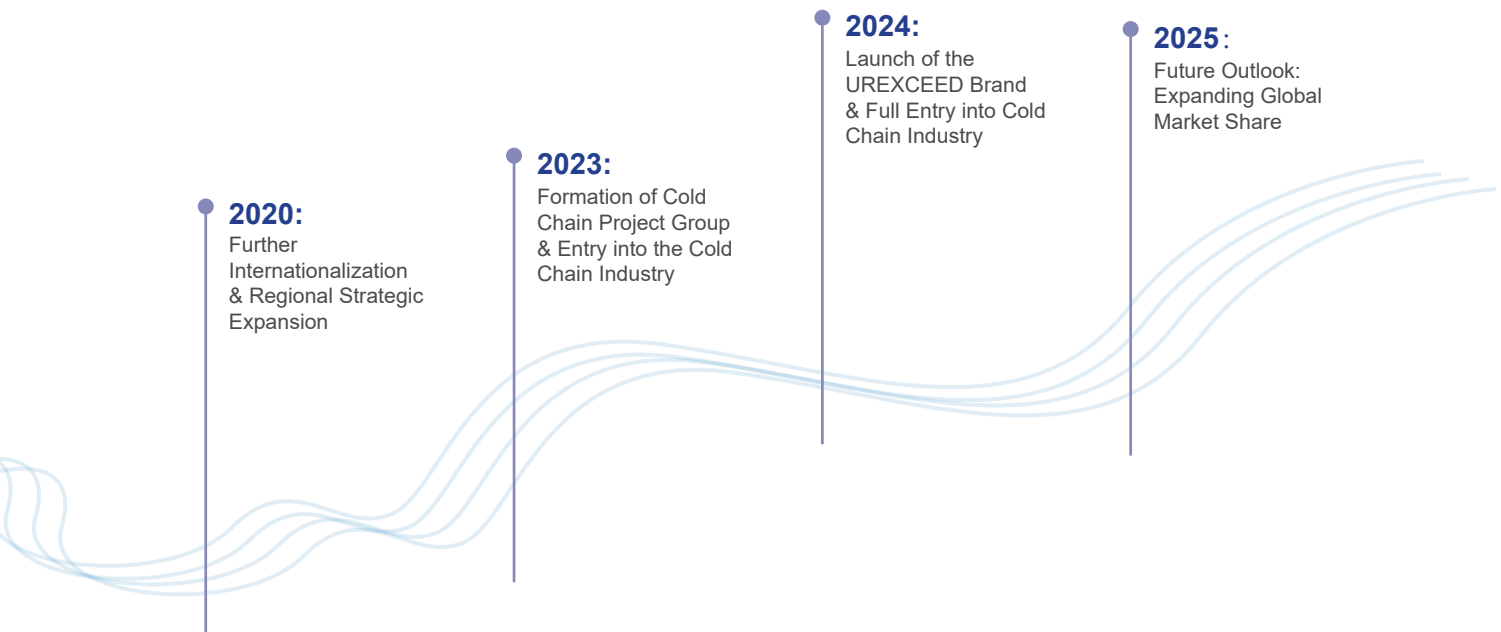

DEVELOPMENT HISTORY

发展历程

Summary & Future Outlook:

- Since its establishment, UREXCEED has always been driven by technological innovation, continuously expanding its business scope and international presence. From a leader in polyurethane equipment to a global cold chain solution provider, we have evolved into a major player in the industry. In the future, we will continue to focus on the cold chain industry, enhance our products and services, and create greater value for customers worldwide.
- We leverage our certifications to build trust with customers around the world, offering high-quality, safe, and compliant products. With CE certification and other industry-specific credentials, we are equipped to deliver world-class solutions and expand our reach across international borders.
- Our active participation in these global trade shows and industry events underscores our commitment

to staying at the forefront of technology and innovation in the polyurethane and cold chain industries. By engaging with global partners, attending key exhibitions, and sharing our expertise, we ensure that our solutions continue to meet the evolving needs of our customers worldwide.

- With our versatile equipment like CNC Machines (Computer Numerical Control), Bending Machines, Milling & Turning Machines and so on, we are able to offer fully customized solutions based on client needs. Whether it's creating bespoke components for complex cold chain systems or specialized polyurethane machinery, we leverage our advanced equipment to meet specific project requirements.

At UREXCEED, we've been a trusted partner in the cold chain industry since 2005. We specialize in providing advanced polyurethane foaming equipment, precision moulds, and fully integrated production lines that ensure your operations run efficiently and smoothly.

As your reliable support, we offer tailored solutions, on-site installation, and 24/7 technical assistance, helping you overcome challenges, optimize production, and maintain high-quality standards.

With our global reach, technical expertise, and commitment to excellence, we're proud to support businesses across 36 countries, helping them succeed in their cold chain journey.

**Our
Vision:**

To become a global leader in refrigerator and freezer manufacturing solutions.

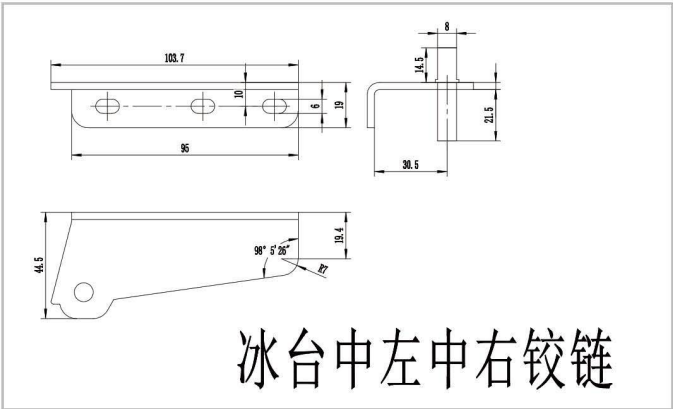

The image displays two views of a metal bracket. The left view is the front view, showing a vertical rectangular plate with a triangular cutout at the bottom left corner. The right view is the back view, showing the reverse side of the bracket with a diamond-shaped hole at the top left corner and three circular holes along the right edge.

Two metal brackets are shown against a white background. The bracket on the left has a threaded cylindrical end on its vertical flange, while the one on the right has a smooth cylindrical end. Both brackets have a horizontal base with three oval-shaped cutouts and a triangular reinforcement on the vertical flange.

Two metal L-shaped brackets are shown against a white background. Each bracket has a vertical flange and a horizontal flange. The vertical flange of each bracket features three elongated slots. The horizontal flange also features two elongated slots. The brackets appear to be made of a dark, possibly galvanized, metal.

Two views of a metal bracket. The left view shows the bracket with a threaded rod and nut attached to its side. The right view shows the bracket without the rod and nut, highlighting its L-shaped profile and three mounting holes.
